MAGNETIC PROFILES
AND BLOCKS

MAGNETIC PROFILES

Magnetic Straight Edge

- Made of composite resin with permanent magnets embedded all along its length, the MAGNETIC STRAIGHT EDGE allows you to produce profiles before casting and before laying the precast slabs.
- Its bevelled face allows easy removal from formwork.
- Other sizes can be manufactured on request. Minimum quantity for these special series ≥ 25 m.

Part No	Name	Dimensions A x B x C [mm]	Slip resistant	Scale sizes	Weight [kg/m]
002891	Magnetic Straight Edge 25 x 18 x 25	25 x 18 x 25	40kg/m	1.25m	1.00
002892	Magnetic Straight Edge 40 x 33 x 25	40 x 33 x 25	4 kg/m	1.25m	2.00
002894	Magnetic Straight Edge 50 x 43 x 25	50 x 43 x 25	40kg/m	1.25m	2.30
003625	Magnetic Straight Edge 50 x 42 x 30	50 x 42 x 30	75kg/m	1.25m	2.70
003626	Magnetic Straight Edge 60 x 52 x 30	60 x 52 x 30	75kg/m	1.25m	3.70

Magnetic Trapezium

- Made in the same way as the magnetic triangle profile.
- Other sizes can be manufactured on request. Minimum quantity for this special series ≥ 25 m.
- This profile can be used to create either recesses or water drip grooves.
- End connection between long lengths possible.
- Other sizes on request

Part No	Name	Dimensions A x B x C [mm]	Slip resistant	Scale sizes	Weight [kg/m]
002904	Magnetic Trapezium 20 x 13.6 x 12	20 x 13.6 x 12	30kg/m	1.25m	0.63
002901	Magnetic Trapezium 30 x 22 x 15	30 x 22 x 15	30kg/m	1.25m	0.80
002905	Magnetic Trapezium 40 x 32 x 15	40 x 32 x 15	30kg/m	1.25m	1.04
002903	Magnetic Trapezium 40 x 29 x 20	40 x 29 x 20	30kg/m	1.25m	1.30
002900	Magnetic Trapezium 50 x 39 x 20	50 x 39 x 20	30kg/m	1.25m	2.00

Magnetic Triangle

- Delivered with bevelled right angle to improve application.
- Made of composite resin with permanent magnets embedded all along its length, the MAGNETIC TRIANGLE PROFILE is easy to position in the corners of the metal formwork.
- More economical than steel profiles welded into formwork.
- Other sizes can be manufactured on request. Minimum quantity for these special series $\geq 25\text{m}$.

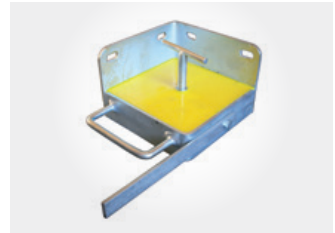

Part No	Name	Dimensions A x B [mm]	Slip resistant	Scale sizes	Weight [kg/m]
002877	Magnetic Triangle 21 x 15	21 x 15	3kg/m	1.25m	0.16
002878	Magnetic Triangle 28 x 20	28 x 20	30kg/m	1.25m	0.60
002879	Magnetic Triangle 35 x 25	35 x 25	8kg/m	1.25m	0.76
002885	Magnetic Triangle 42 x 30	42 x 30	8kg/m	1.25m	0.90

MAGNETIC BLOCK

Magnetic Block Metal Frame

- Magnetic block with a metal frame.
- For fixing shuttering in vertical formwork.
- Force 400kg.

Part No	Name	Dimensions L x l x H ([mm])	Slip resistant	Unit Weight
018369	Magnetic Block Resin 400kg Metal Frame	21 x 15	3kg/m	1.25m

Magnetic Block Resin

- Magnetic block made of resin.
- For fixing shuttering in vertical formwork.
- Force 240kg and 400kg.
- Also available in 750kg

Part No	Name	Dimensions L x l x H ([mm])	Scale sizes	Unit Weight
018451	Magnetic Block Resin 240 KG	15 x 11 x 8.5	1 p.	2.04
018367	Magnetic Block Resin 400 KG	15 x 15 x 8	1 p.	2.41
